☞ A share of patronage is solicited and satisfaction will be given.

no23-3m E. K. GROVE.

Political Boomerang.

From the time the first carpet-baggers went to the South for the purpose of sowing seeds of dissension among the natives, we have been warning the public of what would be the result. We knew such a state of things could not last without producing a revolution in sentiment, even among the negroes themselves, but we had very little hope that the Radical press would acknowledge the fact and publish it to the world. The force of circumstances has driven them to confession. They see the handwriting on the wall. They are trembling on the very brink of ruin. Such sins would make Satan tremble.

They have robbed the white people and the negroes alike, and now the *National Republican*, published in the city of Washington, gives the following doleful account of the present condition of the Republican party. We find it in that paper of the 24th of December. It is so unusual for the Radical press to condemn their own party we give the whole of the article:

"The Republican party in the South is demoralized, and no organization of any consequence exists in either of the States from Virginia to Texas. Wholesale corruption has done its perfect work, and the corruption of the sham Democracy has been too well imitated by the fellows who fraudulently fastened themselves upon our party in the reconstructed States. We blame not the ignorant freedman or the simple-minded mountaineer who accepted the leadership of fellows who went South to speculate in votes, even as they did at home in wooden nutmegs or gift jewelry. They found trusting victims, and as is the custom of the breed, "to trust was to betray." The political squatters who have damned Republicanism in the South have been fitly portrayed as creatures whose "highest idea of statesmanship was to steal, and whose only idea of policy was to lie." They have lied to the poor country people of the South, and made them believe that the extremists were right when they declared a Northern man and a robber were one and the same. These same men have initiated the colored citizen into the villainy of politics, and we are having a painful harvest of crime all over the South. Rings are formed in every Legislature, and representatives are bought right and left. One day they impeach State officers, and the next day undo their work, and ignorant brutes, miscalled legislators, loudly brag they have a price. All this we see in North Carolina, South Carolina, Georgia and Florida. In the South-west it is no better. Of course the question comes up, "Who is to blame? What shall we do to purify our party and rid the organization of the incubus fastened upon us?" Our advice has been given boldly, and we repeat it for the benefit of our Southern friends. Men of North Carolina, drop your railroad "robbers," and mark with the brand of infamy the chief conspirator and his confederates. Let the State brigands of the Palmetto State be driven out, and pure men be chosen. Let the Empire State of the South redeem her good name, and kill off professional politicians by selecting from the ranks of industry her chief. Let the advice we copied from the Alabama *State Journal* be followed all over the South, and the army of camp-followers, traders, sutlers and quartermasters be dropped into proper obscurity; so shall the south have rest, and the national Republican party be organized afresh."

Should the party be purified as the *Republican* suggests, there would be no party of Radicals in the South. Plunder is all that kept them together, but there will be none to keep together when the rascals are turned out.—*Examiner.*

Helen Josephine Mansfield.

The San Francisco *Bulletin* publishes some scraps of information about the fair Helen, bearer of that fatal name, whose owner seems destined to lure men to crime, which at this moment possesses unusual public interest:

"The Mansfield family have been well known in California. In 1854 Joseph Mansfield was the editor of the San Joaquin *Republican*. He was a man who had the respect of the community. He was shot by a man named John Tabor, the editor of the Stockton *Journal*, the difficulty growing out of some newspaper trouble. At that time the Mansfield family resided in Boston. Subsequently Mrs. Mansfield married a man named Warren, a citizen of California, and the family, including the daughter, Helen Josephine, came to San Francisco and resided for some years on Sutter street. Helen soon became known as a girl without reputation, and acquired a character for blackmailing. In 1862 or '64 she married Frank Lawlor, the actor, and they moved to New York, where she abandoned her husband or he abandoned her, and she became more notorious than ever as the mistress of Jim Fisk. She gained a strong hold on his affections and for a long time held the strings of his purse. Among those who knew of her attempts to blackmail in this city, her disagreement with Fisk is regarded merely as an attempt to blackmail him. It was frequently remarked yesterday in such circles that the probability is that she did blackmail him to a considerable extent, and until he found that the more he yielded the more she demanded. The recent sensation of the Fisk-Mansfield suit was the occasion of the New York newspapers adding all they could to the interest of the sensation, describing her beauty in glowing terms. She was known here as a woman of fine physique; but the beauty of her features has been very much exagerated. Her mother is now a resident of this city.

SALE OF BULL RUN BATTLEFELD. The farm called Hazel Plain in Prince William county, Virginia (better known as Chinn Farm), containing 550 acres, and belonging to B. T. Chinn, was sold on the 29th ult. for $8 per acre, to Mrs. Mary A. Downmann, executrix. This farm is a portion of the plateau upon which were fought the first and second battles of Manassas. When the war commenced it was under a high state of improvement, and the dwelling-house upon it was one of the finest in that section of the State, but that scourge devastated it, and the open fields, and the young pines and shattered mansion, all now bear evidence to the bloody conflicts of which it was the scene.

The Projected Canal.

The incorporation of the 'California Irrigation Company," by a number of prominent capitalists, who have the means and, we believe, the disposition to carry out the project of building a canal from the Sacramento river to Suisun Slough, is the commencement of an enterprise of the greatest importance to this State. The names of the Directors are almost a guarantee that the Company is in earnest in its purpose. Gen. Frisbie and Eugene L. Sullivan are too well known to need any mention here; A. H. Rose and A. Hayward have been the leading spirits in the great swamp land reclamation movement, and are the principal stock holders in the Amador Mining Company; Charles E. McLane, is the principal manager of the business of Wells, Fargo & Co. on this coast; A. Redington, the popular druggist, is the largest owner in the Knoxville Quicksilver Mine; and C. J. Brenham, C. W. Howard, and J. C. Wilmerding, are San Francisco capitalists whose credit has been almost unlimited.

The project is by no means a new one. The Legislature of 1865 appropriated seven thousand dollars for a survey of the route, and the report of the Chief Engineer, W. H. Bryan, will be read even at this time with interest. The project of the old Company was too ambitious and extensive a one to be successful, on account of the immense expense to be contracted. It provided for a canal large enough to float vessels of very considerable size, with branches and feeders at various points, together with magnificent aqueducts and locks that would do credit to Lockport, New York. The route selected was from the mouth of Red Bank Creek, on the Sacramento River, near Red Bluff, down the valley in a southwesterly direction, crossing Cache Creek at El Dorado place. From this point the canal was to pass over sixty or seventy spurs of the foothills, span the ravines with aqueducts, crossing Putah at the Overhause ranch, coming down west of Silveyville, and then having two great branches—one to Cache Slough and another to Suisun Slough.

The new Company have more practical ideas and can accomplish the work with a moderate amount of capital. The route chosen is nearly the same, and branches or feeders will be used for collecting and receiving the waters of the streams leading into the Sacramento River from the Coast Range and Clear Lake, as well as the Sacramento River itself. The object is especially for irrigation; and the country through which the canal will pass will be the great grain-raising portion of California. From Red Bluff, down there are many thousands of acres of valuable land that in dry seasons cannot be cultivated, and near the river there are many thousands of acres that cannot be cultivated in a wet season. The canal will equalize these matters, and will be just as valuable in a year of floods in carrying off the water as it will be in a year of drouth in distributing the water. Our peculiar climate and the uncertainty of the Winter have deterred many farmers from attempting to cultivate their land, and they have preferred to use it for pasturage where there were few chances of losing money by their investment. In other countries with almost similar climates to that of California, irrigating canals have insured large crops every year and men have been rewarded for their labor in defiance of the fickleness of the elements, while the building of this canal will be for the special benefit of the country through which it passes, it will also be greatly for the benefit of Vallejo, for the reason that nearly all of the wheat raised west of the Sacramento River will be sent to this city for storage or shipment, and if the product is increased ten-fold it is so much more to our advantage. As the natural outlet for this extensive region, and as the terminus of the railroads that lead from all parts of it, we cannot be indifferent to the progress of any enterprise that adds to our prosperity as a city, or that increases the wealth of the finest portion of the State.—*Vallejo Recorder.*

CALIFORNIA RAISINS.—From the Santa Cruz *Sentinel* of January 6th we take the following:

G. M. Jarvis, of the famous Vine Hill Vineyard, has prepared and boxed, from this year's vintage, several thousand pounds of raisins, from the choice Burgundy grape, which surpass in flavor and excellence any brand of foreign raisins in the market. This is a new feature with the grape growers of this county, and from the successful experiments of Jarvis this season, promises to become extensive and profitable. This luxury can now be supplied by the home product at a greatly reduced price—six-pound boxes selling for $1 25. There is no reason why tons of superior raisins could not be prepared next year in this county, thus turning our valuable vintage to a more profitable and desirable account than wine-making. Jarvis will be enabled, from his extensive varieties next year, to prove what are best suited for raisins. From Jarvis' vineyard a great many tons have been sold throughout the country for table use, several tons turned to raisins, and over 20,000 gallons of wine made from the best varieties of foreign grape. Several thousand gallons of superior wine-vinegar have also been manufactured from the refuse pulp this season.

ARREST OF A RADICAL DEFAULTER. Samuel E. May, who was Secretary of State in Oregon, under the administration of Gov. Gibbs and Gov. Woods, for a period of eight years, and who adsconded from the State about nine months ago, was arrested as a defaulter, at Salt Lake, on Sunday last, by E. D. Foudray, Deputy Sheriff of Jackson county Oregon on a requisition from the Governor of that State. The ex-Secretary was in our city for several days, and occupied the roons of a friend at the Lick House. He left today on the steamer for Portland. His embezzlements extend over a long period and some of them are outlawed, as more than three years have elapsed since their commission. His retention of the office of Secretary for so many years, giving him the settlement of many State Funds, enabled him to cover up his tracks. Losing his position by the success of the Democracy in carrying the State, an investigation established his swindling transactions, and he is now in a fair way of meeting the punishment due his crime.—*Examiner.*

The New Party.

Politically nothing is of so much interest to Democrats at this time as the status of their own party. The advocacy of the "passive policy" by a few leaders has created a confusion in the ranks which cannot be overcome until the policy of the party is definitely shaped. It is now pretty clear that the non-action movement was premature and is already a failure. It has not met with such a response from the leaders or rank and file as to give much encouragement to its authors. Indeed the advocates of the new programme are not numerous, or very influential. It is popular in Missouri because it has the support of Frank Blair and the Missouri *Republican*, and also because that State was redeemed from Radical rule in 1870 by a union of Democrats and Conservative Republicans in support of a Conservative Republican ticket. But outside of that State the movement seems to have made no impression worthy of note. The only State in which the Democrats have held a convention recently is New Hampshire, and that body passed over the new policy in silence. In the South there seems to be a difference of opinion, a few journals endorsing the Blair movement, but nowhere except in Missouri, does it appear to have taken deep root.

The state of public sentiment at Washington City is the best index, as Congressmen representing constituencies in nearly all the States, are assembled there, and none understand the feeling in the party better than they.

Our information from the National Capital is to the effect that the new movement has received but little encouragement from the representatives of the people, and that none of them are prepared or willing to abandon the organization or surrender its principles. So far as our observation has extended we know of no old line Democratic leader who has identified himself with the movement. It is confined exclusively to the new accessions who are yet comparatively fresh from the Republican party and whose party clothes fit very loosely—such men as Frank Blair, Montgomery Blair, General McClernand and John Quincy Adams. When Hendricks, Pendleton, Casserly, Thurman and men of that stamp give in their adhesion, then, and not till then, is it at all probable that the policy will become sufficiently popularized to secure its adoption.

The discussion of the proposed policy has been evil in its consequences. Its tendency has been demoralizing to the Democrats and encouraging to the Radicals. It is calculated to impress friends and foes with a sense of weakness on our part, and this of itself will defeat any party. It is as impossible for a party to win a victory under such circumstances as for a demoralized army to win a great battle. We trust the matter will be permitted to rest where it is and that the party leaders will devote their energies in the future to bringing up the old organization to a greater state of efficiency, to consolidating its strength and drilling its forces for the great battle of 1872. With proper management and energy the party can be made successful this year. The Republicans are divided among themselves and cannot cement the severed parts with Grant as their candidate for the Presidency. His nomination is conceded. He cannot be beaten in convention, and the result will be that the disaffected Conservative Republicans, under the leadership of Shurz, Trumbull, Sumner and Greeley, will organize a new party and put up a candidate. This will so divide the Republicans that the Democrats, if properly led, will sweep the field. We are glad to note that Senator Casserly has repudiated the do-nothing policy.—*Sonoma Democrat.*

A STORM SIGNAL FOR RADICALS.—The New York *World* has published a series of tables showing the prospects the Democrats have of carrying the next Presidential election.

For the election of members of 42d Congress the vote polled was 5,535,852. Of these the Republicans had 2,747,206; the Radicals 3,788,377, showing only a majority of 41,172 in favor of Grantism. But by the same vote, if cast for President, in the Electorial College, the Democracy would have a majority of one. Since then a brighter sky has dawned upon us. The attempts made to stifle investigation as to the abuses committed by the Administration have disgusted the people. Wheu such able men as Senators Trumbull, Schurz and Sherman go after extravagance and corruption with a view of unmasking their perpetrators, the nation will sustain them, and render the foregone conclusions of the ultra Radicals to nominate General Grant a barren victory. He cannot be re-elected. And this idea is becoming so fixed in their minds that many of their leading men, who have not taken part against the present Administration, see the necessity of not incurring defeat by an artful dodge; for they do not advocate it from principle, as did the Democracy, but from expediency. "One term" is becoming their rallying cry; and if it prevents Grant's renomination, it will prove a wedge that will rift in twain the Radical party, only held together by the bands of public plunder. —*Examiner.*

"YALE" AND THE PRESIDENT.—The Yale College boys had their usual Thanksgiving jubilee, and the Committee on Invitations publish in the *Courant* responses to their requests for the attendance of various distinguished personages. Among the well-made hits perpetrated is the following which all will pronounce true to life:

EXECUTIVE MANSION,
WASHINGTON, D. C., Nov. 25, 1871.

GENTLEMEN:—I am, much to my disappointment, obliged to decline your invitation to the jubilee. One of my horses is ill, and I should hardly feel warranted in being absent at so critical an hour. There is also a fair prospect of a new gift house, which I would not like to miss. Admiral Porter or some of the Dents may come.

Yours, truly, U. S. GRANT.

THE Springfield *Republican* has been exposing some of the tricks of the Indian contractors and speculators. It says these scoundrels have frequently turned in small Texas steers and cows weighing 600 to 800 pounds at 1600 pounds each to the Government for the Indians, and then stole them back again, while the same thousand sacks of flour have been sold over and over again to Uncle Sam.

The National Labor Reform Party.

To whom it may concern:

At the session of the National Labor Congress, which convened at St. Louis, August 7th, 1871, the following resolution was unanimously adopted:

Resolved, That it is the opinion of the Congress that the time for the assembling of the Convention for the final organization of National Labor Party of Columbus, Ohio, should be extended to the third Wednesday of February, 1872, instead of the third Wednesday of October, 1871, and that this resolution be given to the press of this country, and forwarded to A. M. Puett, chairman of the "Committee of One from each State and Territory"—having the business in charge.

In accordance with the spirit of the foregoing, notice is hereby given that the Convention of the National Labor Reform Party will meet in the city of Columbus, Ohio, on the third Wednesday in February, 1872, at 10 A. M., for the purpose of nominating candidates for the offices of the President and Vice President of the United States, and the transaction of such other business as may come before them.

Each State to be entitled to one delegate for each member and senator in the Congress of the United States, and one delegate from each Territory and the District of Columbia.

Delegates shall have the certificate of the chairman and secretary of the Convention appointing and also the endorsement of the member of the National Committee of their respective States and Territories that they were duly elected, and that they endorse the principles and purposes of this call. Delegates coming from districts where no convention has been held, or no member of the National Committee resides, will be subject to the action of the National Convention when organized.

A. M. PUETT,
Chairman N. L. R. Committee,
Greencastle, Ind.
A. CAMPBELL, Sec'y, La Salle, Ill.

THE LABOR REFORM PARTY'S CALL FOR A CONVENTION.

Notice is hereby given that a State Convention of the Labor Reform Party will be held in the city of San Francisco, Thursday, the 25th day of January, at 10 o'clock A. M. The object of the Convention will be to elect six delegates to represent the State of California in the National Labor Convention which will meet in the city of Columbus, Ohio, on the 23d day of February next, to nominate a candidate for President and Vice President, to be voted for at the election in November, 1872; also, to organize a State Labor Union, and to transact such other business as may be deemed proper.

Each Local Labor Union will be entitled to delegates, and one additional for every fifty members after the first fifty.

Delegates should all have their credentials signed by the President and Secretary of the Union electing them.

W. D. DELANY,
Executive officer of National Labor Union, and member of National Convention, for the State of California.
San Francisco, Dec. 28, 1871.

THE WORLD'S FAIR OF 1873.—Americans should remember that Vienna is to have a world's fair in 1873. At the Paris exhibition of 1867 nearly everything sent from this country took a prize, and there is no reason why the same thing should not be repeated at Vienna in 1873. The exhibition will undoubtedly be the largest that has ever yet been seen. The park set apart for the exhibition contains four times as many square yards as has ever been similarly occupied, and the principal building alone will have a length of 4,650 feet. The committee having the matter in charge wish to have full displays of the raw materials and manufactured articles of each nation, with statistical information in reference to the amount produced and the trade therein. Special efforts will be made to have the art collections as complete as possible, and it is proposed to have a loan collection from all the German museums, similar to the celebrated one at Kensington. Another specialty will be a collection of articles used by different nations in their domestic affairs, kitchen utensils, furniture, dress, ornamental objects, in fact everything used about a house. As the Austrian nation has never had an exhibition of this character, they will undoubtedly work hard to make it a success. The opportunity ought not to be neglected by the manufacturers of this country.—*New York Post.*

A SENSATION.—Monterey city has had a first-class incident to excite her people. The recent rain storm overflowed the lower portion of the city, and placed the basement story of the Washington Hall three feet under water. The storm must have been great to produce such a result, for the rising ground on which the old capital stands is admirable for drainage. The down-pour was terrific. It is estimated that in little more than an hour six inches of rain fell. For a time the excitement was intense and families fled to the rising grounds back of the city, and in some cases reached them with the greatest difficulty. The rush of water down the sloping hills must have been frightful. Cattle and horses were carried away. Such a storm never occurred before in the memory of the oldest inhabitant.—*Examiner.*

FATAL ACCIDENT NEAR CALISTOGA. A stage accident occurred December 30th on the road from Calistoga to Clear Lake, which resulted in the death of the driver and of the owner of the stage, Davy, who was a passenger. Part of the road was flooded, says the *Aita*, and when passing a creek near Captain Copp's house the wheels passed over a large stone, which overturned the stage in the stream. There were four passengers on board and they escaped with slight injury. Davy rode outside. It was raining and he strapped a tarpaulin over his feet. When the coach was upset he was unable to extricate himself and was drowned.

THEODORE TILTON, in the *Golden Age*, says the President's message reads like the "monthly record of current events in an old magazine," and likens it to a "bundle of items put together like a bundle of cigars," and then winds up by saying that not being the work of a statesmen he is not disappointed at finding no statesmanship in it.

Swamp and Overflowed Lands.

There are few men better posted on the subject of the disposition and reclamation of the swamp and overflowed lands of this State, says the Oakland *Transcript*, than our fellow townsman, J. Ross Browne.

An Anglo-American Syndicate in London, has undertaken an important enterprise which is warmly indorsed by Mr. Browne. The primary objects of this Syndicate are:

1. To secure by conditional agreements, or absolute purchase, large tracts of marsh, swamp and overflowed lands in the State of California.

2. To form a company in London, with Board of Management in San Francisco, (the capital stock to be at least $5,000,000) for the purchase, reclamation and utilization of these lands.

3. To render such lands when improved, a source of profit to the State as well as to the company, by dividing them into small tracts and encouraging settlement upon them by sales at low prices and on easy terms of payment; by leases on shares of the crops, by direct cultivation on well organized systems, and by all other legitimate means that may be suggested by experience, or by a community of interests.

4. To facilitate immigration to California, and thereby enhance the value of the lands, by providing passages for farmers, laborers, artizans and other industrious classes from England, Holland, Germany and elsewhere, and furnishing them on their arrival with homes on long credits and at low rates of interest, and by making all necessary advances of provisions, seeds and agricultural implements, thus enabling them to meet the exigencies of the first year, and ultimately acquire such proprietary interests in the lands as they may desire.

Newspaper Decisions.

The following legal decisions in relation to newspapers, from the highest authorities, we wish every postmaster, every subscriber to a paper throughout the country, would take the trouble to read carefully:

A postmaster is required to give notice by letter (returning the paper does not answer the law), when a subscriber does not take his paper from the office, and state the reason for its not being taken, and a neglect to do so makes the postmaster responsible to the publisher for the paymeut.

Any person who takes a paper regularly from the postoffice—whether directed to his name or another—or whether he has subscribed or not, is responsible for the payment.

If a person orders his paper discontinued, he must pay all arrearages, or the publishers may continue it until payment is made, and collect the whole amount whether it is taken from the office or not.

If a subscriber orders his paper to be stopped at a certain time, and the publisher continues to send it, the subscriber is bound to pay for it if he takes it out of the postoffice. The law proceeds on the ground that a man must pay for what he uses.

The courts have decided that refusing to take newspapers and periodicals from the postoffice, or removing and leaving them uncalled for, is *prima facia* evidence of intention to defraud the publisher.

POLITICAL FRAUDS IN FLORIDA.—Mr. Robinson, a radical Republican, thus writes to the *Tribune*: "The State is cursed by a ring as corrupt as the Tammany Ring, and, to the sorrow and shame of all Republicans, this Florida ring claims to be the very essence of Republicanism. Its organ attacks everybody who will not submit to its control. Its Governor, elected for a long term by the most abomnable fraud and corruption, has nearly all the offices of the State in his gift, and hence controls legislation and carries the judiciary in his pocket. His power of removal and appointment of officers is almost unlimited. As a consequence of three years of such government as Florida has been and is afflicted with, the State is bankrupt, the people forced to a point that incites a spirit of revolt, and a disposition to free themselves of their rulers by the aid of a vigilance committee. The natural consequence will be the loss of Florida to the Republican party, for many of its honest members are free to say that they had rather see the State under rebel rulers than under the wicked gang now in possession."

NO MORE ROTTEN BOROUGH STATES. The Congressional Apportionment Bill, lately passed by the House, provides that no new State shall hereafter be admitted having less population than will make a Congressional district—say 134,675. If this prohibition is retained in the Senate, we shall have no Territories with 30,000 to 50,000 inhabitants rushed in as States, with a voice in the Senate equal to New York with her millions of people; nor shall we be annoyed with the nuisance of every Territory, as soon as it is organized, being made a nursery for embryo statesmen. It is time such a rule as is proposed were set up.

According to the census of 1870, the territories are populated as follows: Wyoming, 9,118; Arizona, 9,658; Dakota, 14,181; Idaho, 14,999; Montana, 20,595; Washington, 23,955; Colorado, 39,864; Utah, 86,786; New Mexico, 91,-874. If these figures are nearly correct now, and are made the sole standard, not one of the Territories would be entitled to admission under the House bill.

A SPECIFIC FOR DIPTHERIA.—The Italian journals publish a letter from Dr. Giovanni Calligari, describing the remarkable success which has attended his treatment of diptheria with phenic acid. He relates the losses he formerly experienced among his patients when treating them with emollients, solvents, and cauterization with hydrochloric acid, and observes that this cauterization can no more eradicate the morbid principle than tearing the leaves off a plant will destroy the root. He now simply uses a gargle of phenic acid and distilled water, with external applications of new flanuel; the food and drink to be taken cold. After the adoption of this treatment Dr. Calligari lost but one patient out of fifty-eight. He requested the Italian journals to publish this discovery. Phenic acid is the agent which is now being used in this country as a remedy for cancer, and seems likely to effect an immense saving of lives formerly hopelessly sacrificed to that disease.

The Yolo Democrat.

COUNTY AND TOWN OFFICIAL PAPER.

WOODLAND, CAL:

Saturday, January 20th, 1872.

NEW COUNTY PROPOSED.—A bill has been introduced in the Legislature to form a new county to be called Sotoyome.

PROBATE COURT.—The Probate Court will meet on Monday next to hear application for probate of will of E. T. Barnum, deceased.

REFUSED.—The application of the colored men of Stockton that their names might go in the jury-box, was refused by the Board of Supervisors.

ILL.—B. F. Washington, editor of the San Francisco *Examiner*, is confined to his bed by rheumatic fever. We trust he will soon be at his post again.

DEATH OF GEN. HALLECK.—Gen. H. W. Halleck died on the 10th inst., at Louisville, Kentucky, of congestion of the brain. He was commander of the military division of which Louisville is headquarters.

NOT SUSPENDED.—The Vallejo *Daily Independent* says the published report that work in the California Pacific Railroad shops had been suspended, is incorrect. The shops are still open, though the number of workmen has been reduced, a force having been sent up the road to assist in repairing damages.

"VALLEJO DAILY INDEPENDENT." We have received several copies of this neat little daily, published by Messrs. Thompson & Linthicum, both well known throughout the State as old and thorough newspaper men. The *Independent* is a good paper and we trust will remunerate its enterprising publishers. Vallejo now has three daily papers.

FLYING VISIT.—Hon. F. S. Freeman, Assemblyman from this county, was home on Monday last but returned before we had an opportunity of conversing with him in regard to the provisions of the bill introduced by him in the Assembly for the incorporation of Woodland. We learn that it is to be printed, and if favored with a copy will lay it before our readers.

SACRAMENTO AND WOODLAND DIRECT.—A daily line of Whitehall boats and four-horse stages is now running between Sacramento and this place direct. The stage leaves the Capital Hotel, Woodland, every morning at 10½ o'clock, connecting with the boat about six miles east of town, carrying passengers and freight to Washington, opposite Sacramento, in four or five hours. The boat leaves the Olive Branch Hotel, Washington, at 8 o'clock, connecting with stage, and passengers arriving in Woodland about noon.

R. R. TRAIN TIME.—Since the breaks have occurred in the railroad between Davisville and Sacramento and Knight's Landing and Marysville, no trains have been able to run through from Vallejo to either Sacramento or Marysville, nor will they be likely to for some months hence, as the embankments on the tules have been in many places entirely washed away. One train daily each way is found to answer all purposes, as there are no connections with other roads as before the flood, and Knight's Landing is now the northern terminus. Below is the running time of trains at present, and probably will continue to be for some time to come: Leave Woodland for Vallejo daily at six in the morning; returning, arrive at ten in the evening.

How will it Work?

The following article on the position of the Democratic party is from the Charlotte (Mich.) *Leader*, which coincides with our views on the subject:

There is a portion of the Democratic press and a few professed leaders in the Democratic party, who are clamoring for a "passive policy" and coalition with some branch of the Radical party, as a means of assisting in the election of the next President. The Detroit *Union*, whose claims to lead in the Democratic party are considered doubtful, advises this course. Montgomery Blair, of Missouri, and Hon. Geo. H. Parker, of Iowa, advocate the same thing.

The "passive policy" consists in simply standing idle until the disaffected minority of the Radical party shall place a Republican candidate for President, upon a Republican platform, in the field in opposition to Grant, and then the Democratic party to go to the polls *en masse* and vote *the Republican ticket*, for the simple object of defeating—not the Radical party, but only the Grant faction, which we consider would be a bootless victory, unless the entire party shared the same fate.

But the coalition scheme is one that will require considerable "working up." It is simply an abandonment of the Democratic party—name, principles and all, for the avowed purpose of *organizing a new party*, to consist of disaffected Radicals—those who are willing to swallow the bait, and such of the Democratic voters as could be induced to accept this amalgamation scheme, and running an independent candidate with a platform to please everybody, which means in plain terms, *no platform at all*.

There seems to be several obstacles in the way of these two nice little schemes. In the first instance, there is no certainty that the disaffected wing of the Radical party will nominate a Presidential candidate; and therefore the prospect is fair for the do-nothing Democracy to sit passively by and see Grant enter upon his second term without opposition.

As to the coalition scheme, we have heard of no Radicals who are desirous of entering a new party during the reign of their own, preferring half a loaf to no loaf at all, and we cannot for the life of us see where the material for a new party is to come from. Will some of our coalition brethren give us more light on the subject?

Sacramento Letter.

[From our Special Correspondent.]

SACRAMENTO, Jan. 16th, 1871.

DEAR DEMOCRAT:—As my last did not arrive in time for your issue of the 13th, although mailed on the 10th I shall not inflict so long a communication as usual, and also shall mail this one day sooner than heretofore, hoping it may reach you in time. Since my last the

SALARY OF COUNTY JUDGES

Was attempted to be placed in the power of the Supervisors of the several counties of the State. This measure originated with the Judiciary Committee, the very source from which we would least expect such an act to come. This Committee, of all others, is one that we supposed would be in favor of keeping the Judges independent and free from all improper influences. Yet it was the good sense of the Senators who were not lawyers, that killed the bill and saved the integrity, independence and purity of the judiciary. Mr. Minis made an able speech against the bill. It was lost by a vote of 25 to 10.

A special Act was introduced by Senator Minis, of Yolo, to empower

THE SCHOOL TRUSTEES

Of Woodland School District to borrow money to finish the school house and improve the grounds belonging to the District. The bill is carefully guarded.

A special bill was introduced by Mr. Ellis to

PROTECT AGRICULTURE

In Los Angeles county. While the bill is intended for but one county, it is probably as good for any agricultural county as the one for which it is asked. Its object is to prevent the trespassing of animals upon private property. It provides for taking up and keeping at the owners' expense animals found trespassing on another's grounds, etc. In other words, it is the first bill offered at this session in the direction of the no-fence measure.

STATE PRINTING.

Mr. Duffy of the Senate has introduced a lengthy bill, of twenty-three sections, in reference to State Printing. It awards the Printing to the lowest bidder and makes the accepted one the State printer for two years. It does not take effect until 1875, therefore does not interfere with the present incumbent, T. S. Springer. It may be a good measure, but looks to us like "buncombe."

REGISTRY OF MARRIAGES, BIRTHS AND DEATHS.

A still more lengthy bill was introduced by Mr. Harvey, of the county of Sacramento, into the Assembly upon this subject, for the "purpose of establishing local Boards of Health and for other sanitary purposes." This act contains 49 sections and over 14 pages of printed matter. This subject of registering the births, marriages and deaths, was tried in 1858, but found of so little use that the law was abolished. It made a place for a partisan, and Mr. Harvey's bill makes fees for officers, and may be utilized in the manner he proposes. There is not much connection between the title of the bill and what it proposes to do. The purposes of the Act are, to purify our cities by sewerage, cleansing, keeping away slaughter houses, ventilation, vaccination, proper interment of the dead, and many other things too tedious to mention. A Board of Health is created who have all these things under charge.

JOHN A. SUTTER.

The generous hearted old pioneer whose name stands above was, by a resolution which passed the Senate, given two hundred and fifty dollars per month, for two years, from April next. This is as it ought to be. Marshall, the discoverer of gold, ought to get a similar pension.

DR. BURNETT'S WIDOW.

A resolution passed the Senate, offered by Mr. Tuttle, giving $500 to the widow of the late Dr. Burnett. This is also a just tribute.

CONSTITUTIONAL AMENDMENT.

If we have counted aright this is the 11th Amendment offered at this session. It is: "The Legislature shall have no power to appropriate money for private or sectarian purposes." This Amendment, if in force, would have cut off the power of the Legislature to have acted right in the cases reported above.

HOISTING THE FLAG.

A resolution was introduced into the Senate granting John Cunningham $5 per diem for hoisting our flag upon a long pole provided for this purpose. This pole cost over twelve hundred dollars, we were informed, but is a very fine pole, long enough to knock the highest persimmons in the orchard. This pole is peeled and painted, and has ropes to steady it, and is rigged for hoisting the American Flag.

The Committee on Contingent Expenses reported against the resolution, we suppose for the reason that the Secretary of State and the two Houses of Legislation had plenty of lovers of the dear old flag lounging around, doing nothing, scarcely, but drawing their salary. It should be flung to the breeze by somebody, for

"Ne'er waved
A lovlier banner for the brave,
Than that our bleeding fathers won,
And proudly to their children gave."

THE BALLOT.

Its secrecy and purity ought to be guarded, and Mr. Banvard has introduced a bill into the Senate by which he thinks at least to defeat the improper interference with voters, that is often attempted by the employer when he knows how his employee votes. This is doubly necessary since railroad companies have gotten such power and wealth in our land.

DOUBLE TAXATION.

There have been three bills introduced on this difficult subject, and none of them meet our views of what is right. It is wrong to tax property more than once, yet, under our present system, it may be taxed a number of times. Take the example of merchandise. The importer sells to the jobber and takes his note at six months; the jobber to the retail merchant, and takes his note; the retailer to the consumer and takes a note. The Assessor comes along and assesses the goods and notes. The only thing valuable is the merchandise, yet there are three notes and the property itself taxed. Is this equitable? We should say not.

RECEPTIONS.

The Governor's reception was a grand affair; at least 250 couples were in attendance. It was a sociable gathering, without so much fomality as the Inauguration Ball, but far more pleasant.

STANFORD,

The great railroad king, gives one shortly which is expected to eclipse all the rest.

EDGAR MILLS

Also has a grand reception in progress at this moment to which, by the way, by we have no "pass."

THE CROCKERS

Will have to follow suit or be euchered; this their pride cannot stand, so we may expect to have several big receptions or "levees" this Winter.

CONCERT.

There is a bill out for a concert on Tuesday, the 23d, to be given by the blind, for the benefit of a young blind girl. Miss Moran, of Oakland, who is said to be a sweet singer, is getting it up to help a friend, who like herself, gropes through life in total darkness, but is not deprived of one source of exquisite enjoyment—that of melody.

THE MAILS

Are in such confusion that we do not know that our imperfect letter will reach you in time, but hope so, and predict that the great storm is over now and that the waters will subside and enable Woodland to have communication with the outside world.

INDEX.

District Court.

The January term of the Sixth Judicial District Court for Yolo county opened on Monday, January 15th, Hon. Lewis Ramage, District Judge presiding. The following business was transacted:

Sheriff made return of venire for trial jury, of fifty persons, of whom thirty-one were in attendance.

The People vs. John Wood—By agreement of counsel, cause continued for the term.

The People vs. Christian Barth—Murder. Tried by jury who found verdict of "not guilty" and prisoner discharged.

Sacramento Savings Bank vs. John Hines—Judge H. O. Beaty entered of record as counsel for plaintiff and cause continued for the term.

Waring vs. McClory—Continued.

Ralston vs. Cal. P. R. R. Co.—Plaintiff dismised action.

Wright vs. Carpenter et al.—Set for trial 20th March next.

Wright vs. Roseberry et al.—Same order.

Wright vs. Husted—Same order.

Wright vs. Eibes et al.—Same order.

Moore vs. Fratt—Continued.

Griffin vs. Yolo County—Continued.

Covell vs. Yolo County—Continued.

Dresbach vs. Wristen—Continued.

Wristen vs. Dresbach and Friedlander—Continued.

Oldum vs. Cross et al.—Transferred to Sacramento for trial.

Central P. R. R. Co. vs. Schwerin—Continued.

Cal. Quicksilver Mining Co. vs. Redington et al.—Continued till May 10th.

Dexter vs. Taylor—Same order.

Farris et al. vs. Mering—Demurrer overruled and ten days given to answer.

Kirsch vs. Kirsch—Demurrer confessed, plaintiff declining to amend, and judgment ordered for defendant.

People vs. Morris et al.—Swamp Land assessments—Continued to May 10th.

People vs. Cook et al.—Same order.

Laugenour vs. Cal. P. R. R. Co. Nos. 864 and 865—Demurrers overruled and ten days to answer in each case.

Multner vs. Leibes and Bowman—Motion for change of venue and leave to file affidavits; hearing set for May 10th.

People vs. Hagar et al.—Judgment for defendant. 25 days allowed plaintiff to file exceptions to findings.

Perry vs. Cal. P. R. R. Co.—Demurrer to complaint sustained; 20 days allowed to amend.

Haines vs. Wm. Wishart—By agreement judgment entered for possession of land and for costs.

Rawlins vs. Rawlins—Decree of divorce granted.

Wristen vs. Friedlander et al.—Plaintiff's motion for new trial granted.

Odea vs. Cal. P. R. R. Co.—Judgment for plaintiff according to stipulations on file.

Clark vs. Clark—By agreement cause dismissed.

Mast vs. Mast—Decree of divorce granted plaintiff.

Ruland vs. Mendessolle—Judgment for plaintiff for $250 without costs.

McClintock vs. Dinwiddie—Report of Receiver confirmed and Receiver discharged.

Schuder vs. Day—Tried and judgment for plaintiff for possession and one cent damages and costs.

Court adjourned to 20th of March next at 10 o'clock A. M.

THE PRISON COMMISSION.—Hon. W. Minis came to town night before last, via Vallejo, having been to San Quentin on a tour of inspection with other members of the State Prison Commission. They found the Prison very much crowded, so much so that increased accommodation for prisoners is absolutely necessary. A report will shortly be published of the general condition of the Prison and its requirements.

Delayed Sacramento Letter.

[From our Special Correspondent.]

SACRAMENTO, Jan. 10th, 1872.

EDITOR DEMOCRAT:—The Legislature returned to its duty after an absence of thirteen days. This thirteen days cost the State over twenty thousand dollars. This is quite an item in our annual expenditure and might be avoided by a change in our Constitution fixing the meeting of this body on the second Monday of January, which amendment will be presented to the people for their approval at our next general election. There are many grave reasons why this should be made the fundamental law of the State.

THE FIVE PERCENT LAW.

Mr. Turner of Sierra introduced an Act to repeal this law, enabling the supervisors of the counties to assist in the construction of railroads after a vote of the people of the county, and asked that it might be referred to the Judiciary Committee, remarking on the merits of the bill that all parties stood pledged to the people for its repeal, and intimating that this committee was the proper one to let it be referred to. This excited McClay, who demanded its reference to the Committee on Corporations, declaring they would report on it in a few days. Out of courtesy it was so referred, and until Monday the 8th was given to return the bill with report thereon, the chairman McClay pledging himself that the committee would on this day report the bill back to the Senate. Monday came but no report, and the committee wanted further time. The Senate, on motion of Mr. O'Connor, demanded that the bill be returned to the Senate without recommendation. After a fight in which Senators Irwin, Larkin, McMurry and one or two others demanded the bill back. Tompkins, Vanness and one or two others insisted that further time be given. The motion of O'Connor prevailed, by a vote of 18 to 19. It is now on the file and will probably be taken up soon.

JOHN A. SUTTER

Has still some friends in the Legislature. A bill to relieve him was introduced by Mr. Duffy. So long as his picture hangs in the Assembly hall, the State ought to take care of him. The old gent was generous when he had the means, and we would far rather see him get some of the pocket money of the State than the thousand and one young, stout, mutton-headed, lazy, impudent dandies who haunt the Legislative body from year to year, receiving sinecure clerkships.

ADDITIONAL GROUNDS

For the State Capitol. This would be an emminently popular act, if the land purchased could be piled up under the Capitol. From the river this costly building looks as if some giant had placed his hand upon the rotunda and pushed it into the earth. It is the most "squatty," disproportioned and unsymetrical building we ever saw, taking into consideration its magnificent proportions in other respects. The stories are too low, the windows too small and the site too flat. It looks as if the weight of the rotunda had sunk the center of the building down about twenty feet.

ARSENAL.

The Senator from Sacramento—for she has but one now—also introduced a bill for the construction of an arsenal. This *may* be needed. Let it be so or not, there will not be a growl from the Sacramento press. We have heard it said that a dead jackass was one of the wonders of the world, but certainly "a growl" from any of the Sacramento press, about money expended in this city for the construction of public buildings, is a greater wonder, especially when we know that the present Assemblymen must die.

RELIEF.

A bill was introduced by your worthy Senator, Minis, to releive the sufferers from the diversion of the American river. It very soon received its quietus. Mr. Minis was absent at the time the bill to relieve the sufferers was up, but is now in his seat and has just made a motion and speech to have it again referred to the committee, so that the friends of the bill may be heard. He urged its re-reference with great warmth, and Duffy and Comte were equally warm against it. The bill was recommitted.

THE ASSEMBLY

Of the State of California are now the most dignified body upon the face of the earth. If not above reproach they are beyond approach. They are like Cesar's wife, when that old lady, "who is dead now," was locked up—she was above suspicion. We did hear boss Shannon, in private conversation, tell the reason for not allowing any one on the lower floor, inside the room, and we know it is wrong to repeat private conversation, but we tell this as a secret and don't want your readers to repeat it. It was simply in regard to "influencing" members; it should not be done so publicly, but "in the backroom." In the Senate of the United States a constituent can sit by his Senator, but if a gentleman goes alone to the Assembly Chamber of our State which has a population half as large as New York city, he is taken by the breast and pushed out; if he has a lady with him he is kept out and the lady led into the lobby. What was the lobby built for? That the men of the State who were interested in the doings of this body might be present and enforce some degree of honesty. They ought to go the full length and have a foreman who would stay with them constantly; the only objection to this would be that in the evenings they might be divided whether to go to the Varieties or the Metropolitan.

COUNTY JUDGES.

The question of salary was up on Monday last. There was a proposition to allow the Supervisors to fix the salary of the County Judges in the several counties. This was endorsed by the whole Judiciary Committee. If your supervisors are of the same material of those in our county, away up in the mountains, we would say God save the mark! This measure, in our humble judgment, and in that of a majority of the Senate, we believe, would make the Judge the creature of the Supervisors. Destroy their independence, and it will lead to bargaining, corruption and infamy. It would soon degrade the Judges if it would not elevate the Supervisors. The salaries of all other county officers might be regulated by the Supervisors rather than those of the Judges.

THE LITIGANT BILL.

The repeal of this Act was, in accordance with the report of the Judiciary Committee, indefinitely postponed, because its simple repeal left no law authorizing the publication of legal papers But there are threats of making another repealing act, that will provide for this difficulty.

LIMITATION LAW.

Mr. Perkins had a favorite measure, the extending the time of the commencement of actions on book account, notes, etc. He lost his Act, and Mr Tompkins was beyond himself in his defence of the adverse report made by the committee, as much as he was below himself on the salary of County Judges.

INVESTIGATING.

There was a resolution up for the investigation of the Board of Public Works—those who have the erection of the City Hall in San Francisco. There was no foundation for the resolution but a scurilous anonymous pamphlet, full of low fish-monger slang. Oulton, of San Francisco, and Finney were the advocates, together with Betge, who adds ten fold when on the right hand side of a digit, but nothing when on the wrong side, and opposed by Duffy, Irwin, Tompkins, Farley, McKenny and others. It was voted down after a lively contest. Oulton is supposed to be the leader of the Republicans; he may do in their ranks, but is small potatoes when compared with the Democratic leaders in the Senate.

EIGHTH OF JANUARY.

After staying longer in session and doing more business than on any other day during this session, by a resolution offered by Senator Perkins the Senate adjourned in memory of Gen. Andrew Jackson. But even here that green-eyed monster, jealousy, was busy at work in the breast of a Senator, by the name of Evans, who resisted the resolution to the last. Being a military man himself, we could conceive no other motive than this for his persistent opposition. "How we apples swim."

INDEX.

S. F. PRINTING.—The *Evening Post* has been awarded a portion of the San Francisco city printing.

SOMETHING WRONG.—The *Evening Post* thinks there is something wrong about the management of the Industrial School in San Francisco, and says "20,114 pounds of sugar were used in that institution during the past year. As the number of boys and employes together is only 230, this is 87 pounds per head, which is a pretty good consumption of sugar considering it to be a fact, as we understand it, that the coffee and tea set before the boys is sweetened with molasses."

New Advertisements.

Lyon's Kathairon,

For Preserving and Beautifying the Human Hair, to Prevent its Falling Out and Turning Gray.

A well-preserved Head of Hair, in a person of middle age, at once bespeaks refinement, elegance, health and beauty. It may truly be called Woman's Crowning glory, while men are not insensible to its advantages and charms. Few things are more disgusting than thin, frizzly, harsh, untamed Hair, with head and coat covered with Dandruff. Visit a Barber and you feel and look like a new man. This is what LYON'S KATHAIRON will do all the time. The charm which lies in well placed Hair, Glossy Curls, Luxuriant Tresses and a Clean Head, is noticeable and irresistible. Sold by all Druggists and Country Stores. ja13-1y2

Plantation Bitters

S. T.—1860—X.

This wonderful Vegetable Restorative is the sheet anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid, it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid, it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

ja13-1y

Incorporated in the Year 1819.

CASH CAPITAL $3,000,000 00.

Cash Assets July 1, 1871,

$6,047,878 07!

For a period of over fifty years this Company has promptly met its obligations, without a day's delay, and has ever occupied the position of the

LEADING AMERICAN FIRE INSURANCE COMPANY.

This position it will continue to maintain, and in the present crisis will preserve and add to its well earned reputation.

Telegraph advices from Hartford, under date of the 24th ult. report the Chicago loss not over three millions; and a Directors' meeting of that day voted to make the Reinsurance Fund intact by assessment of the stockholders. This leaves the Company with a capital of $3,000,000 and over $1,000,000 surplus.

Probate Notice.

IN THE PROBATE COURT of the County of Yolo and State of California; in the matter of the Estate of EDWARD T. BARNUM, deceased.

The People of the State of California send greeting:

In pursuance of an order of this Court, duly made and entered on the 3d day of January, A. D., 1872, notice is hereby given that

MONDAY, THE 22d DAY JAN. A. D. 1872,

at one o'clock, P. M., of said day, at the Court House in the Town of Woodland, in said County, has been appointed for the hearing of the application of JOHN H. BROGAN, praying that a document, now on file in this Court, purporting to be the last will and testament of Edward T. Barnum, deceased, be admitted to Probate, and that letters testamentary be issued to said John H. Brogan, who is named therein as executor, at which time and place all persons interested may appear and contest the same.

[SEAL.] E. BYNUM, Clerk.

Attest: By J. L. SIMPSON, Deputy.

JAMES JOHNSON, Atty for Petitioner. j6-3t

Notice of Dissolution of Partnership.

NOTICE IS HEREBY GIVEN THAT THE Partnership heretofore existing between James F. Houghton and George W. Lee under the name and style of Houghton & Lee, doing business at Vallejo, Solano county, California, and also formerly at Davisville, Yolo county, California, dealing in lumber and building material, is dissolved.

Dated at Vallejo, Dec. 22d, 1871.

Town and County Matters.

The Leap-Year Ball.

Our special Leap-Year reporter attended the grand ball recently given by the young ladies, in Woodland, (for of course all young ladies like to attend balls, especially during the, to them, privileged leap-year, as there are often many advantages attending such fashionable and high-toned gatherings,) and thus discourseth of what was seen and heard on that pleasant occasion, and which we publish for the benefit of those who were not so fortunate as to be among the happy participants:

The Leap-Year Party given by the ladies of Woodland, on the 12th inst., was eminently successful and is pronounced one of the most pleasurable gatherings ever assembled in the town. By eleven o'clock Washington Hall was filled with the beauty, fashion and *elite* of Woodland and its vicinity. Youthful bachelors and aged ones, young maids and old maids, married folks and unmarried, blonde beauties and brunette beauties; owls over whose aged brows winters of wisdom had gathered—and who lingeringly hoped for some whispered proposition—owls whose hirsute facial feathers had only known a few Summers, and who were "o'er young to marry yet;" doves with big eyes and little eyes, liquid eyes and unliquid eyes, pensive brows and pencilled brows, pin-feathers and pinned feathers, and of every color from sky-blue to pea-green—all seemed to vie in making the Leap-Year Party of eighteen hundred and seventy-two an occasion long to be remembered. We opine, that the sterner sex were, or ought to have been, peculiarly gratified. No petty, annoying responsibilities, such as paying entrance fees, etc., attached to their part of the affair. The Lords of Creation were unresistingly deprived, for the nonce, of their inalienable rights, and the Feminine vines, towering in modest superiority, threw their protecting foliage over the masculine oaks of Woodland. In plain language, the ladies paid for everything, did everything, and your reporter with every body else, heartily concur in awarding great credit to the lady managers for the happy initiation and successful prosecution and termination of their party; and the best epitaph we can write over the buried joys of the occasion is—"Try it again, we like it!"

Owing to the inclemency of the weather and the fact that there was no communication between Paris, London, New York and San Francisco, the costumes of the gentlemen were not as rich or as variegated as they otherwise would have been. We can only give a few samples of them, as our space will not permit us to give a full description.

Dr. A. B. M. wore a suffumigated medico frock coat, full breasted, with metallic buttons; ruffled shirt and hair combed *a la* Esculapius;—very much admired, especially by the outsiders.

Mr. F. E. B. wore dark brown legal Tunic, Roman cut, with glass buttons; pants of the same kind, cut tight about the knees; purple neck-tie, butterfly shape; hair worn poetico-greasico, without curls. Boots full size;—much liked by marriageable maids and disliked by envious bachelors.

Mr. T. P. M. appeared in light blue swallow-tailed coat, Yolo cut, in the style of Charles the Second; white satin vest with Dove's feathers in basso-relievo; collar turned down *de* Grand Duke Alexis; hair brushed up Oriental fashion. Admired muchly by reason of his bland smile and fascinating manners.

Mr. C. W. B. was attired in full dress coat of the Banko-semi-ramede cut; pants of like formation, flesh-colored vest with blush tinge; Byronian collar, with "Shoo fly" neck-tie; hair frizzled La Talleyrand;—a great deal thought of on account of his quiet demeanor and insinuating conduct.

Mr. E. R. B. had on black frock fitting closely to the body, and tight pants, which showed off his form to advantage; collar and neck-tie built on the Grecian order of architecture; hair arranged intellectually. He was remarkable for the subdued indifference of his manner. The fair ones shot their batteries at him in vain.

Mr. S. G. H.—Full Court suit, with silver knee buckles and tight stockings, white enamelled vest and flesh-colored kids; hair combed *a la* Baldwinian. He was admired by all for his considerate attention to those fair ones who took no part in the dance.

Mr. W—e.—Lilac pants with vest of like color, made after the fashion of Louis the Fourteenth; scarlet dress coat with silver buttons; large seal ring with a looking-glass in it on his left hand middle finger. He was distinguished for his polite bearing and much sought after on account of his graceful dancing.

Mr. S. C—dw—ll's complexion was much improved by a white satin vest and Polar bear neck-tie with a double heart in the centre; hair parted in the middle, in raven-ous style. He gazed upon the beautiful scene and its proportions with the eye of an architect.

Mr. R—nd—r appeared in a snuff-colored, medicinal scotch plaid of the most improved make; red and white cravat with skull and cross-bones in the middle; hair fixed on the Americo-onion order;—whenever asked to dance his expressive face was wreathed with smiles.

Mr. G. B. S. had on a type colored overcoat editorially set with periods, colons, semicolons, and commas; his hair was worn *a la* Horace Greeley, and his jewelry flashed brilliantly amid the gay and festive scene. His dancing was picturesque and created much sensation.

Mr. J. D. S. wore a long tailed silver-gray surplice, sea-weed pants, white vest with brass buttons; top boots and high collar, fitting well up about the ears. He was quiet but pleasantly sarcastic, and looked as if he would have danced had he been asked.

Mr. H. S—s looked well, yet unique, in a large pair of large-sized, square-toed boots, made of untanned leather; his moustache was well greased and his form was conspicuous by reason of his dazzling vest and neck-tie. He was much admired and looked as if he wanted to—marry.

Mr. Gr—m—s looked particularly youthful in a very tight pair of pantalettes and a loose French gown, gathered up on the sides by corduroy tassels. His arms and neck were bare and tremendously classical or otherwise. He enjoyed the dance internally and took many important items.

Mr. J. L. did the beautiful in Dove-colored neck-tie, mouse-colored unmentionables and rat-colored overall. We did not enquire about his other clothing, but it must have been warm, as he prespired very freely during the evening. He was gay at first, evidently expecting a Leap-Year proposition, but became sad towards the last, and we think departed from the "gay and festive" entertainment "a wiser if not a better man."

Mr. C—le.—Blouse *a la* Ductchico, with modern pants fashionably cut; hair slightly inclined to curl; moustache and imperial Napoleonic in form. He looked pale and interesting and was affectionate in manner.

Mr. H. T—k—m was dressed in variegated checked muslin pants, holding in his hand a Mecklin lace handkerchief scented with musk of roses, vest of purple swan's feathers tipped with white. Whiskers trimmed *a la* Burnside. He looked *distingue*, sympathetic and muchly militaire.

Mr. Sp—g—n.—Claret-colored bodice with flowing skirt, train *la Pompadour;* vest of crimson chintz; pants of Valenciennes flannel; boots made to order. His style was imposing, yet loving, and he seemed open for propositions.

Dr. R—y.—Cream of tartar jacket with calomel scollops, cut short, showing his figure to advantage; rhubarb vest with lozenge spangles; pants medically cut. His tall form and peculiar guise were much observed, and he was overheard softly exclaiming, "Oh, if I were only twenty years younger!"

Mr. H—z—n wore a brilliant robe de noir, embrocaded with point lace; moustache undyed and hair well set up. Looked young for his age, but was serene and happy.

Dr. R—ss looked ancient in a Galen surtout richly ornamented with the figures of mummies, said to have been taken from the Pyramids of Egypt and imported expressly for the occasion. He behaved as well as could be expected under the circumstances.

There were many others in attendance whose personal appearance and gorgeous appearal attracted much attention, but we cannot describe them in this communication; and without entering further into particulars it will suffice to say that the ladies were good looking (the writer excepted), the gentlemen were handsome, the music excellent, the supper all that could be desired; that the bright lights "shone over gay women and brave men;" that "eyes looked love to eyes which spake again," and that "all went merry as a"—Leap-Year Ball.

We understand that quite a nice amount after paying expenses, was distributed among the deserving poor of the town.

Yours truly, EUPHEMIA JANE.

LAND AGENCY.—I. C. Ball, agent of W. S. Green & Co., has now on hand and for sale cheap, large tracts of farming and grazing lands in Yolo and Colusa counties. Persons desiring to purchase, or having land for sale, will do well to give us a call, as this agency affords superior advantages for buying and selling real estate to any yet established. *2t

BOARD OF SUPERVISORS.—At the special meeting of the Board on Wednesday last, the members of the Board were all present, but reports not having been made by Surveyor and Viewers upon the road matters to be considered, no business was transacted, and the Board adjourned to meet on Wednesday next, Jan. 24th.

SHEEP SAVED BY THE STORM SIGNAL.—The san Francisco correspondent of the Sacramento *Record* relates the following:

Navigators and merchants are not the only men to derive advantage from the scientific deductions and predictions of the Storm Signal Bureau. A day or two since a farmer walked into the office in this city and asked the observer to give him some "probabilities." He had a large flock of sheep in a certain place on the other side of the bay, and he feared the valley would be submerged by another heavy rain. The observer told him he would not predict a storm, but if he wished to save his sheep he must drive them out of the valley. The farmer hastened to the place, drove his sheep into the hills, and the next day the valley was flooded. The office is visited daily by grain dealers, farmers, mariners and merchants, all anxious to learn from the observer the "probabilities" of the weather.

JUSTICE'S COURT—J. H. TOMPSON, J. P.—Jan. 13th.—People vs. Wm. Troop—continued from 12th to 13th inst. Defendant found guilty of assault and battery. Motion for new trial overruled. Defendant waived time and was sentenced to pay a fine of $35. Fine promptly paid. When delivering sentence, the Court took occasion to remark, that as a general rule, parties found guilty of a misdemeanor would be fined not less than costs. The County Treasury having already suffered too much in such cases.

Jan. 15th.—A. McClurg vs. S. S. Guile—Change of venue from Putah Township to Cache Creek Township. Notice given Plaintiff and Defendant to appear Jan. 25th.

Inhabitants of Woodland vs. W. J. Roberts—Defendant charged by R. T. Buckley, Marshal, with violating Town Ordinance. Deposited $20 for his appearance at 10 o'clock A. M. 16th inst. T. Laugenour vs. A. Erskine, W. J. Roberts and Samuel Lee—Action to recover $200 on promisory note. Attachment issued.

Jan. 16th.—W. J. Roberts appeared, plead guilty, was fined $5. Fine paid and Defendant discharged. Ruggles & Machefert vs. P. N. Wood—Action to recover $242 55 on a promisory note. Attachment issued. Sill and Craft vs. Ben Hastings—Attachment suit for $50. Judgment by default entered against Defendant.

Jan. 17th.—Ruggles & Machefert vs. P. N. Wood—Case settled, property released. S. S. Ridgeway vs. certain cattle and unknown ones—Complaint filed, summons issued.

BARTH ACQUITTED.—As will be seen by the District Court proceedings, Christian Barth, indicted last May for murder, was acquitted by the present trial jury, who rendered a verdict, after hearing the evidence, of "not guilty," and of course the prisoner was discharged. He has been in confinement in the county jail some eight months awaiting trial.

REMOVED.—Nangle, the Anatomical Boot Maker has removed his shop to the Good Templars' building, opposite Roberts' livery stable and west of the railroad. He will make fashionable boots to order that will fit like a charm. He respectfully invites the patronage of his old customers and the public in general.

OVERFLOWED.—We learn that the strong north wind of Tuesday last drove the waters on the west side of the levee at Knight's Landing into the town, but have not heard that any serious damage was done or any particulars.

FOUND.—A black crape veil was found on the sidewalk corner of Main and First streets on the night of the leap-year party and may be had by calling at this office.

TURN VEREIN DRAMATIC ENTERTAINMENT.—This, the public will be glad to hear, is to come off on Monday evening, January 29th, at Washington Hall.

SYMPTOMS OF LIVER COMPLAINT AND SOME OF THE DISEASES PRODUCED BY IT.—A sallow or yellow color of skin, or yellowish brown spots on face and other parts of the body; dullness and drowsiness, with frequent headache; dizziness, bitter or bad taste in the mouth, dryness of throat and internal heat; palpitation, in many cases a dry, teasing cough, with sore throat, unsteady appetite, raising of food, choking sensation in throat; distress, heaviness or bloated feeling about the stomach and sides: pain in sides, back or breast and about shoulders; colic, pain and soreness through the bowels with heat; constipation, alternating with frequent attacks of diarrhœa; piles, flatulence, nervousness, coldness of extremities; rush of blood to head with symptoms of apoplexy; numbness of limbs, especially at night; cold chills alternating with hot flashes; kidney and urinary difficulties; female weakness, dullness, low spirits, unsociability and gloomy forebodings. Only a few of the above symptoms are likely to be present in any case at one time. All who use Dr. Pierce's Alt. Ext. or Golden Medical Discovery for Liver Complaint and its complications, are loud in its praise. Sold by all first-class druggists.

GRAY HAIRS prevented, dandruff removed, the scalp cleansed, and the hair made to grow thickly by the use of Hall's Vegetable Sicilian Hair Renewer.

For the very best Photographs, go to BRADLEY & RULOFSON, No. 429 Montgomery Street, San Francisco. ☞ Closed on Sundays. ☜a

BORN.

In Woodland, Jan. 11th, to the wife of C. A. Brown, a Son.

In Woodland, Jan. 16th, to the wife of G. Kaufman, a Daughter.

In San Francisco, Jan. 16th, to the wife of B. M. Fleishman (of the firm of Fleishman & Kaufman, of Woodland,) a Son.

SPECIAL NOTICES.

A Body and Mind Disease.

Such is dyspepsia. The stomach and the brain are too intimately allied for the one to suffer without the other, so the dyspepsia and dependency are inseparable. It may be added, too, that irritation of the stomach is almost invariably accompanied by irritation of the temper.

The invigorating and tranquilizing operation of Hostetter's Bitters is most powerfully developed in cases of indigestion. The first effect of this agreeable tonic is comforting and encouraging. A mild glow pervades the system, the chronic uneasiness in the region of the stomach is lessened, and the nervous restlessness which characterizes the disease is abated. This improvement is not transient. It is not succeeded by the return of the old symptons with superadded force, as is always the case when unmedicated stimulants are given for the complaint. Each dose seems to impart a permanent accession of healthful invigoration. But this is not all. The aperient and anti-fillious properties of the preparation are scarcely secondary in importance to its tonic virtues. If there is an overflow of bile, the secretion is soon brought within proper limits, and if the bilary organ is inert and torpid it is toned and regulated. The effect upon the discharging organs is equally salutary, and in cases of constipation the cathartic action is just sufficient to produce the desired result gradually and without pain. The Bitters also promote healthy evaporation from the surface, which is particularly desirable at this season when sudden spells of raw, unpleasant weather are apt to check the natural perspiration and produce congestion of the liver, coughs, and colds. The best safeguard against all diseases is bodily vigor, and this the great Vegetable Restorative especially promotes. ja

FIRE.—A fire occurred in Mr. Henning's office, back of Justice Thompson's office, about 8 o'clock Wednesday morning, caused by the disjointing of a stove-pipe, where it passes through the roof, during the high wind of the night before. The burning of a small hole in the roof and wetting and blurring some newly written legal documents was all the damage done. Woodland Hook and Ladder Company failed to appear.

TREASURER'S SETTLEMENT.—County Treasurer A. C. Kean, settled yesterday with the State for the last quarter by paying into the State Treasury thirty-two thousand nine hundred and fifty-five dollars and eighty-two cents.

Religious Services.

CHRISTIAN CHURCH—Elder J. N. Pendegast. Services at the Chapel every Sabbath at 11 A. M. and 7.00 P. M. Sunday School at 9 A. M. Prayer meeting every Thursday evening at 7.00.

CONGREGATIONAL CHURCH—Preaching every Sunday, in Central Hall, by Rev. S. R. Rosboro, at 11 A. M. and 6:30 P. M. All are invited. Sabbath School immediately after the morning services.

METHODIST EPISCOPAL CHURCH—Rev. W. S. Urmy, Pastor. Preaching every Sabbath at 11 A. M. and 7.00 P. M. Seats free. Sabbath School at 9.30 A. M. Prayer-meeting, Thursday evening at 7.00, and Class-meeting on Monday evening at 7.00 o'clock, at the Church.

CATHOLIC CHURCH.—Mass will be celebrated in the Court House, Woodland, at 11:30 A. M., on the first, third and fourth Sundays, and in Davisville on the second Sunday of each month.

PATENTED 1869.
THE "DREADNOUGHT" SAFE,
Manufactufactured by the
Tilton-McFarland Safe Manufacturing Company,
95 and 97 Liberty Street,
NEW YORK,
The only Company manufacturing this
Burglar Proof Safe.

In introducing this BURGLAR-PROOF SAFE to the American Public, the Manufacturers offer a Safe, not burglar-proof merely in name, but one which may be surely relied upon to defy all the efforts of the most accomplished burglars for a longer period of time than they can ever have to operate upon a safe.

There is no other safe in the market which, by means of the most approved appliances, may not be opened by skilled burglars in from six to ten hours of uninterrupted attack.

The Dreadnought Safe,

It is admitted by scientific and practical men, will resist for all time the uninterrupted attack of skilled burglars, provided with the most modern appliances which can be carried or introduced into any Bank, Vault or Counting-room, as no equal power can be brought to bear in any such place as to overcome the strength and combination of the material used and the mode of construction.

POWDER or NITRO-GLYCERINE cannot be introduced into it. WEDGES cannot be employed to open it. The Oxy-hydrogen Blow-pipe only opens the way to new and insurmountable difficulties before which the boldest burglars would shrink in despair. Drills, even though diamond-pointed, cannot penetrate its walls. It is impossible to drive in a bolt so as to make an aperture for introducing explosives, as no bolt in the safe passes entirely through the walls, and no bolt penetrates through the outer shell. The position of the bolts, their construction, size, and the way they are inserted, all combine to add to the difficulty and perplexity of the burglar who attempts to open the safe.

THE GREAT
BLOOD PURIFIER.

JUDGE S. HEYDENFELDT says: "My attention was called to it about eighteen months ago, when I had been suffering with rheumatism for more than a year, and had failed to find relief from other remedies. The YERBA SANTA relieved me entirely in two days. Some ten or twelve cases of Rheumatism, two cases of Gout and two cases of Neuralgia have been relieved within my immediate knowledge." B. H. SINTON says: "I fully concur with Judge Heydenfeldt in regard to the curative powers of YERBA SANTA. I have myself used it, and take pleasure in recommending its use to those afflicted with Rheumatism in any of its forms." T. J. JENKINS, M. D., (Physician to Butte County Hospital,) says: "I have used YERBA SANTA for some years in my private practice as physician. I have found it invaluable in cases of Chronic Rheumatism, and of much benefit as an alterative Blood PURIFIER and tonic." FRANK MATHEWS, of Oroville, says: "Some years since, I was a martyr to Rheumatism, crippled in hands and feet, unable to move except with crutches, at all times suffering great pain. I was induced to try YERBA SANTA. I soon experienced great benefit from its use. I am at the present time and inhealthy, and strong indeed as I was mend all who are afflicted I recommend it afflicted as I was to try it." CHAS. WALDYER, of Cherokee, Butte county, states: "For many years a sufferer from Rheumatism in its most painful type I sought relief in vain until I was induced to try the YERBA SANTA, when I found perfect restoration to health. I have recommended it to my many friends, and in all cases a perfect, a speedy and in all cases a cure was the result of its use." cure was the result. San Francisco, J. R. ROBERTS, of three years been says: "I had for afflicted with the Rheumatism, to such an extent that in all that time I was unable to do any work. I was at last induced to try YERBA SANTA; after using two bottles I was completely cured, and am now as well as I ever was in my life." M. H. DARRACH (County Clerk of Butte county,) says: "I have seen much of the beneficial effects of YERBA SANTA in Scrofula, also in Salt Rheum, Rheumatism and Neuralgic affections. I believe I know of no instance where it has failed to cure." YERBA SANTA completely restores the system when impaired by disease, revives the action of the kidneys, and radically cures scrofula, Salt Rheum and all eruptive and cutaneous diseases. It is PURELY VEGETABLE, being made from an herb indigenous to California. It is therefore peculiarly suitable for use by Females and Children, as a Blood Purifier and Renovator. YERBA SANTA is for sale by all dealers in family medicines.

The Yolo Democrat.

MISCELLANEOUS ITEMS.

THE State of Texas could support the present population of the entire Union.

THE father of James Fisk, Jr., is insane from the shock received by the assassination of his son.

THE last ship built in Boston cost $30,000 more than it was worth. Cause—the "protective" tariff.

A LONDON court has had a case before it for forty years, and every one concerned in it but the defendant has died since its opening.

A HEARTLESS President of a Chinese Company in San Francisco turned a dying countrymen into the streets who died in the gutter.

THREE men carried to sea by the tide through the Golden Gate were rescued near the Farralones, having been 8 hours in a skiff.

BY the overflowing of the Guniti River in British India, 3,000 houses were destroyed and 10,000 persons were made homeless. The suffering was great.

NEARLY two thousand miles of irrigating canals have been projected in California which, it is expected, will protect ten million acres of land from drought.

A relation of President Grant has been discovered who holds no office. He is an uncle, named Roswell M. Grant. It is superfluous to add that he is a Democrat.

THE Iowa Legislature, at the next session, it is said, will give the people an opportunity to vote upon the question of striking the word "male" from the State Constitution.

PRESIDENT JUAREZ, of Mexico, was re-inaugurated on the 1st of December, and Congress has conferred on him extraordinary powers. The rebellion seems to be in a hopeless condition.

IN 1870, 10,000,000 dozen corsets were imported into the United States. Near Strasburg there are 1,000 hand-looms employed in weaving corsets for consumption in the United States. That's just it—"corsets for consumption."

THE owner of the barn in which John Wilkes Booth met his death, petitions Congress for compensation to the amount of $2,525 for the loss of the building and contents, which, it will be remembered, were destroyed by fire in dislodging the assassin.

THE *Times*, the only Persian newspaper, is favored with contributions from the Shah himself, who sends to it extracts from his diary. These royal contributions are of great value. For instance: "I got up early this morning, and drank my tea. After eating marched toward ——. Saw a hare, fired at it myself, and shot it with such skill that all the army were astonished. I took the French gun which is loaded from behind."

THE New York *Sun* learns from a gentleman from Southern Texas that President Juarez has enlisted fifteen hundred fighting men in that country and in Arkansas; that the men have crossed the Rio Grande and are now in active service. Their officers were formerly in the Confederate army, and the men are said to be armed with Winchester rifles. The *Sun* thinks such a force will be able to make short work of the Mexican rebels.

THE steamer reform, on her last trip down the Sacramento river, rescued three Chinamen who found a temporary abiding-place in the top of a big tree which had not been completely covered by the swollen stream. They were blue with cold, and their stomachs were painful concavities. As the elder of the trio and possessor of the most gigantic queue remarked, when warming himself in front of the steamer's furnaces: "Too muchee heap cold; too muchee water—no too muchee glub. Three day no eat noting. Dam!"

EMPEROR WILLIAM of Germany has entered his seventy-fifth year, and still his hair and beard alone betray his age; for he not only towers, strong and erect, above his suit, but the freshness of his complexion, the ease of his movements, and the power of endurance which this white haired monarch displays, whether in the field or Cabinet, whether attending festivities or giving himself up to social converse, encourage the belief that he is destined to remain the hope of Germany for many years to come. He owes his physical powers to his simple, soldier-like mode of living.

MARSHALL (Mich.) has been the scene of a lawsuit growing out of the breaking of a pipe. A Mr. Baker was smoking a pipe upon the camp-meeting grounds near Albion. The Rev. D. D. Gillett, then presiding elder, knocked it out of his mouth, after requesting him to put it out, and being refused. Baker sued for the value of the pipe. The Justice gave him judgment, and Mr. Gillet appealed. The case has been once tried, and the jury failed to agree, but this time they found a verdict for Baker, and assessed his damages at *six cents*, with a right smart bill of costs. There is some talk of taking it to the Supreme Court upon some questions arising on the trial.

THE Sacramento *Record* says that it appears that the bridge across the Sacramento at Tehama was not wholly washed away; it was simply tipped over and consequently is not floating down the river to endanger the safety of other crossings. When the bridge was broken, a man named Matthews was carried away. He floated down the stream about a mile on a loose tie, and was picked up in an insensible condition by a man in a skiff. Another man was caught on one of the spans of the bridge where he had to remain all night. The cars are now running regularly to Sesma, on this side of the river, and passengers and freight are now carried across the stream in ferry boats. There is no danger of the bridge floating down in this direction, as, though destroyed, it is held by anchors and chains.

THE *San Joaquin Republican* says San Francisco is a model theoretical saint, and a very practical sinner. When the moral fit is on her she slops over dreadfully, and when she returns to her wallow she wallows all over. She opened her grand lottery game with prayer, and closed it after making a huge winning. Then she became pious and persecuted every other lottery game in the country. She raised one hundred thousand dollars for the sufferers by the Chicago fire, and refused to lend California farmers ten thousand dollars' worth of seed wheat. She has been the paradise of gamblers for twenty years, and all at once she "sours" on faro. Stock gambling and "high for luck" are still orthodox. Queer village. The faro dealers have only to wait for a new deal, and they will be again extended the right hand of fellowship. She will slop over again in another direction before long.

SCIENTIFIC AMERICAN
FOR 1872.
Twenty-Seventh Year.

THIS SPLENDID WEEKLY, greatly Enlarged and Improved, is one of the most Useful and Interesting Journals ever published. Every number is beautifully printed on fine paper and Elegantly Illustrated with original engravings, representing New Inventions; Novelties in Mechanics, Manufactures, Chemistry, Photography, Architecture, Agriculture, Engineering, Science and Art.

FARMERS, MECHANICS, ENGINEERS, CHEMISTS, MANUFACTURERS, AND PEOPLE OF ALL PROFESSIONS OR TRADES WILL FIND THE

SCIENTIFIC AMERICAN

OF GREAT VALUE AND INTEREST.

Its practical suggestions will save hundreds of dollars to every Household, Workshop and Factory in the land, besides affording a CONTINUAL SOURCE OF VALUABLE INSTRUCTION. The Editors are assisted by many of the ablest AMERICAN AND EUROPEAN WRITERS, and having access to all the leading Scientific and Mechanical Journals of the World, the columns of the SCIENTIFIC AMERICAN are constantly enriched with the choicest information.

An Official List of all the Patents Issued is Published Every Week.

The yearly numbers of the SCIENTIFIC AMERICAN make Two Splendid Volumes of Nearly One Thousand Pages, equivalent in size to four thousand ordinary book pages.

SPECIMEN COPIES SENT FREE.

Terms—$3 a year; $1 50 half year; Clubs of ten copies for one year, $2 50 each, $25,

With a Splendid Premium to the person who forms the Club, consisting of a copy of the celebrated Steel-Plate Engraving "Men of Progress."

In connection with the publication of the Scientific American, the undersigned conduct the most extensive Agency in the world for procuring PATENTS.

The best way to obtain an answer to the question—Can I obtain a Patent? is to write to MUNN & Co., 37 Park Row, New York, who have had over 25 years' experience in the business. No charge is made for opinion and advice. A pen and ink sketch, or full written description of the invention, should be sent.

For Instructions concerning American and European Patents—Caveats—Re-issues—Interference—Rejected Cases—Hints on Selling Patents—Rules and Proceedings of the Patent Office—The New Patent Laws—Examintions—Extensions—Infringements, etc., etc., send for INSTRUCTION BOOK, which will be mailed free on application. All business strictly confidential. Address

Sewing Machine!
A New Favorite in California.

The DOMESTIC SEWING MACHINE having been introduced into this State, is now offered to the public. It makes the Shuttle or Lock Stitch, alike on both sides, uses a straight needle, and its range of work is from the heaviest to the most delicate fabric, sewing every kind perfectly. It has a self-adjusting tension, which requires no alteration in changing the thread, or in sewing different thicknesses. In simplicity and durability it is unequaled. One great advantage in this machine is, that it will sew over thick seams without difficulty.

The Domestic Stands on Its Merits Alone, Which have secured it large sales wherever it has been introduced. It combines beauty of appearance with easy, quiet action and perfect work.

THE DOMESTIC SEWING MACHINE is furnished in various styles, the prices ranging about with those of other first class machines.

LIBERAL INDUCEMENTS TO AGENTS.

EQUITABLE
Life Assurance Company,
OF THE UNITED STATES.

Gross Assets, Jan. 1st, 1870,
$10,510,824!

No. of Policies Issued in 1869, 13,072.

AMOUNT INSURED IN 1869, $50,492,941.

Insures at as LOW RATES as are consistent with safety to the Company and the assured.

The Equitable Life Assurance Society of the United States was organized in 1859, with assets amounting to $120,772, and issued in that year 277 policies. In 1869, the number of policies issued was 13,073; amount insured, $50,502,941; total assets Jan. 1st, 1870, $10,510,824.

The Equitable has outstripped all other Companies in the amount of business transacted, and never had but one case of litigation, and in that case it was no fault of the Company, but because of different parties claiming the amount the policy called for.

J. G. JEFFRESS,
Traveling Agent.

Parties wishing information in regard to insurance in the above Company, can obtain it by addressing J. G. JEFFRESS, office of Miller & Garland, No. 430 Montgomery street, San Francisco. ap2-tf

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy action. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reached on the vast multitudes who enjoy it, can hardly be computed. Their sugar coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution, or diet, or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion, Listlessness, Languor** and **Loss of Appetite**, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache, Sick Headache, Jaundice** or **Green Sickness, Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back** and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings**, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression**, a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Hair Vigor,
For restoring to Gray Hair its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *It soon restores faded or gray hair to its original color, with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so uncleanly and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.

CARRIAGE AND WAGON MANUFACTORY!
CORNER MAIN AND FOURTH STS.,
Opposite Gas and Water Works,
WOODLAND, CAL.

LIVERYMEN, FARMERS
AND TEAMSTERS

Will find my make of BUGGIES, SPRING and LUMBER WAGONS, the best in any market for their use.

REASONS WHY:

BECAUSE they have as good if not the best reputation at home. Each Wagon is perfect in all its parts.

BECAUSE my prices are as low as the lowest for first-class work.

BECAUSE I can furnish the highest home testimonials as to their durability and lightness of draft.

BECAUSE none but the best and most experienced mechanics are employed in their construction.

BECAUSE they are built upon scientific principles, combining the greatest strength with lightness of draft.

BECAUSE wherever introduced they are generally preferred by Liverymen, Farmers and Freighters.

BECAUSE they are made in a very DRY CLIMATE, and from that fact are far superior for service to those built in more moist or damp parts of the country.

BECAUSE I give rules for taking care of carriages.

First—The carriage-house should be apart from the stable, as the ammonia arising from horse manure will in a very short time destroy the varnish on a carriage, and then the owner ignorantly charges the carriage maker with using inferior varnish.

Second—In washing a buggy cold water should be used freely, so as to remove the dust and mud before using the sponge and chamois skin.

Third—Never turn the hose under or on the seat, for the water will loosen the canvass and glue, and cause the corners to give way and the body to go to pieces.

Fourth—To preserve the wood and save expense, the carriage should be kept thoroughly painted and varnished.

Fifth—I am better prepared than ever, to Paint, Ornament and Varnish Carriages, Wagons, etc. I have in my employ the best of buggy painters, and use none but the best articles of paints, oils and varnishes; the above in connection with my Paint Shop and Varnish Rooms, which are as good if not the best on this Coast, being hard finished and free from dust. I can, and have turned out as smooth, clean and nice finished jobs as can be done in the State.

Sixth—Those wishing to get their buggies, carriages, etc., repaired and painted, will do well to call at my shop and examine my superior advantages over other shops. I am willing to abide by the injunction, "by their works ye shall know them." I am willing that my work shall praise me; I ask no other endorsement. This endorsement I have had in past years; this I expect to merit and maintain in the future.

C. ELLIOTT.

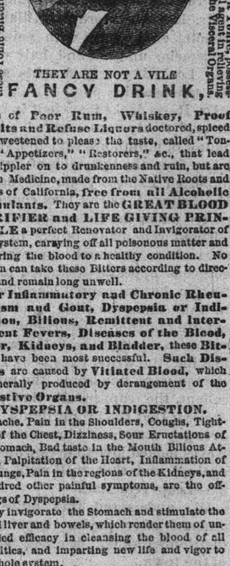
The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?



FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

THEY ARE NOT A VILE
FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

BAPTISED IN FIRE.
THE CHICAGO PHENIX!
A Universal Newspaper.

READ THE FOLLOWING!

A popular weekly paper for the times, embracing the leading features of those journals destroyed by the terrible conflagration, and combining just such a corps of writers as will give the public all the news of the week, in a condensed compilation of the leading journals of the nation and the world.

A Truthful Record.

The PHENIX will be the most truthful and reliable recorder of incidents and facts concerning the great fire, ever published.

Accounts of the Fire.

It will contain only such accounts as are vouched for by reliable witnesses, and will correct the erroneous and fabricated statements of sensational writers.

Chicago and the News.

It will, for a time be devoted especially to the past, present and future of Chicago, besides being the most complete weekly newspaper in the world.

Fireside Companion and Newspaper.

Its columns are devoted to News, Commerce, Science, Literature Art, Drama, Music, Humor, Pastime, Poetry, Fashion, Society news, and enough of Romance to make it a most desirable fireside companion, as well as the most reliable and complete newspaper for the business man in the counting-room.

Beautiful Illustrations.

It will be illustrated with engravings taken from Photographs of the Chicago Ruins, instead of sketches, "By Our Special Artist" who was not "on the spot;" and thus give a series of PERFECT VIEWS, not obtainable elsewhere, and the first number will contain the only correct map of the burned city.

Happy Hours.

That beautiful literary journal, "HAPPY HOURS," whose publisher was the first to issue a paper to meet the public demand, after the awful fire, has been merged into the literary department of the PHENIX, which will embrace the contributions of more than sixty of the most popular writers of the day.

A Special Feature.

The PHENIX will contain, as an especial feature a more complete record of incidents and results of the late terrible fire, than can be found in any book, paper or other publication in the country. So numerous and inaccurate have been the accounts sent forth, that something reliable and readable is eagerly sought at this time, and the PHENIX will fill the bill.

A Paper for the People.

The PHENIX is the cheapest paper in America, being an eight-page, forty-column weekly, at only two dollars a year; in fact it shall be the paper for the people and the times.

The First Number.

The first number will be issued on Saturday, November 11th, and will be the paper wanted by everybody, as a record worth preserving or sending away, and for its accurate illustrations.

Its Basis.

It is a consolidation of other journals, and therefore on a solid foundation, continuing their former circulation.

New Subscribers.

To any person who gets us three new subscribers, we will send the PHENIX for one year free, or one of our beautiful prize, steel plate engravings worth $2,50.

Premiums.

For the purpose of rapidly increasing our subscription list before the close of the present year, we will give to every person who subscribes for the PHENIX during the month of November, a beautiful steel plate engraving, worth $2 50, half a dollar more than the price of subscription. No such opportunity was ever before given, and probably never will be again. Avail yourself of it. Engravings will be promptly and safely sent by mail or delivered at this office, as subscribers may wish.

Subscribe Now.

Send in your names and subscriptions at once, and sustain this great newspaper enterprise. Price of subscription only $2 00 per year. Single copies 5 cents. Agents wanted everywhere

TO THE UNFORTUNATE.
NEW REMEDIES! NEW REMEDIES!
DR. GIBBON'S DISPENSARY,

No. 632 Kearney Street, corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcered Legs, etc., successfully treated.

DR. GIBBON

Has the pleasure of announcing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his Dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness

Produces with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves or rattling chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples and various eruptions about the face, hectic flushes, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequently insanity. If relief be not obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cure at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr. Gibbon, stating case, symptoms, lenth of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By inclosing $10 in coin, in a registered letter, through the Post Office or through Wells, Fargo & Co.

A package of medicine will be forwarded express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.

Address: DR. J. F. GIBBON,
fe18-1y P. O. Box 1937, San Francisco, Cal.
